The KidsPeace Culture of Safety is an integrated approach to ensuring the safety of all children, families, associates and stakeholders within our organizational community. The KidsPeace Culture of Safety is comprised of three main elements:

- **PROTECTION** - Protective equipment, devices and procedures that reduce risk of physical and psychological safety concerns for everyone

- **DE-ESCALATION** - Methods and modalities that KidsPeace uses to help people relax, calm down and reduce emotional tension

A young girl with blue eyes is looking out a window. The window is covered in condensation, and the view outside is blurred. The girl is resting her chin on her arms, which are resting on the windowsill. The lighting is soft and natural, suggesting a window with a view of the outdoors.

“Without KidsPeace I’m not sure where I would be today... Many caring people gave me the treatment and care I needed to move forward.”

HOPE. HELP. HEALING.
